- CAFES AND RESTAURANTS

Jūrmala is an excellent place for families with children. To get closer to nature, enjoy active recreational activities and recharge in the fresh air. It is the place to strengthen children health starting as early as infancy. The clean and rich seaside air, which contains the essential ozone and vitamins, as well as the mildly changing air temperature both have a positive effect on a human health. The friendly resort city Jūrmala offers a wide range of opportunities to improve health, relax and enjoy at any time of the year.

STEP INTO NATURE!

1 Dzintari Forest Park and observation tower
Dzintari Forest Park is the favourite place for Jūrmala locals and guests of the city. The park is lively in all seasons – children in the playgrounds, parents with prams walking along the wooden terraces amidst the pine forest, hikers and joggers on tracks and sports courts of the park. The 13-hectare territory of the Forest Park accommodate playgrounds for children of all ages, tracks for pedestrians and roller skaters, street-ball courts and cafés. A 33 meter high **observation tower** with 12 platforms at various levels is available for watching Jūrmala from the bird's view. In winter the park turns into a **Park of Light** offering a magical trip into a Christmas decoration forest. There is convenient parking, public toilets and baby diaper-changing facility.

2 Ķemeri National Park
There are several nature trails in the park. The favourite is the **Great Ķemeri Wetland Trail**, which offers a fabulous walk along a wooden walk in the untouched high bog. The walk takes you to the kingdom of mosses, marsh pines and dark lakes. The lovers of shorter walking can walk along the lap of a small walk circle, while those who choose to go out along the big circle, as a prize, get a climb to the viewing platform, which offers a wonderful view of the bog scenery from above.

The Black alder bogs walk begins at the Park Information Centre "Forest House" and is 600 meters long. This trail is suitable for families with younger children, at the beginning there is also a playground. The Forest Trail offers the walk to the Ķemeri Historical Resort Park with a mineral water spring "Lizard".

The nature park has an eco-trail consisting of four separate trails – the Nature Trail, the Insect Trail, the Pine Trail and the Plant Trail.
